

TOURNEY® FALL CLEANUP OFFER

REWARDS REBATE

BUY 4 JUGS OF TOURNEY, GET 1 JUG FREE

• PURCHASE BETWEEN AUG 1 AND NOV 15, 2019 •

Now is the best time to save on Tourney® Fungicide. A fall application cleans up existing disease and reduces threat come spring. Plus, Tourney can help protect turf health as it recovers from summer stress. Every jug treats 5 acres, buy now and treat 25 acres* for price of 20!

GET ONE FREE JUG WITH EVERY CASE

One free jug of Tourney will be delivered with each purchased case (4 jugs) of Tourney

Purchase Tourney from an authorized distributor or dealer between Aug 1 and Nov 15, 2019

Sign up by Nov 30, 2019 at NufarmRewards.com/Canada

ONE CASE
+ one free jug
= 20 ACRES*
25

*treat 25 acres at 11.2g/100m²

FALL BEST PRACTICES

- Adhere to fungicide programs (especially late-season)
- Increase mowing heights
- Strict water management – water deeply and infrequently but don't over water
- Syringing greens
- Use fans to improve air circulation
- Limit play or even close course for a couple days
- Limit use of heavy machinery
- Increase nutrition to the plant
- Avoid topdressing until temperatures ease
- Delay core aeration until later in the season

FALL APPLICATION, TWO IMPORTANT BENEFITS

- 1 STRESS RECOVERY:** Over summer, higher temperatures cause considerable turf stress above and below the surface – significantly weakening the plant's root system and, in turn, increasing turf susceptibility to disease outbreaks.
 - Cooler temperatures alone aren't enough to help root systems recover from the stress induced by oppressive heat and humidity. Fungicides are essential to maintain and protect plant health.
- 2 CLEANUP:** The end of the season is time to prepare for the following season.
 - A late season application of Tourney cleans up many diseases, including anthracnose and brown patch, the final season application can also help take down inoculum levels and reduce disease potential the following spring.

TOURNEY DELIVERS PROVEN DISEASE CONTROL

DISEASE	G/100M ²	VINCELLI
Anthracnose	8.4	3 ⚡
Brown patch	8.4-11.2	3
Dollar spot	8.4-11.2	4 ⚡
Fairy ring	11.2	3 ⚡
Grey / pink snow mould†	11.2††	3.5
Microdochium patch	11.2	3.5
Summer patch (Poa patch)	11.2	3
Waitea patch (brown ring patch)	11.2	3 ⚡

- 4** Consistently good to excellent control in published experiments
- 3** Good to excellent control in most experiments
- 2** Fair to good control in most experiments
- L** Limited published data on effectiveness
- ⚡** Highest published Vincelli rating for this disease

Apply in 8–16 L of water/100 m². Tourney is labelled for 1 application/year.

† Grey snow mould is not tested by the Vincelli Efficacy Rating System.
†† For best grey / pink snow mould control with Tourney, mix with another fungicide active on snow mould.
